

Ada Township Parks & Recreation Field Trips

Bring your school or youth group to Ada Township Parks and Recreation for fun, hands-on environmental learning! Our expert staff leads engaging programs that focus on outdoor exploration and nature education. Whether it's discovering local wildlife or participating in interactive outdoor activities, kids will gain a deeper connection to the environment.

Book your group's adventure today!

Program: Watershed Adventure: From Rain to River

Focus: From pond studies to the rushing Grand River students will learn about the importance that water plays in our Michigan ecosystems and the watersheds we encompass.

Program: Michigan's Wildlife: A Journey into the Wild

Focus: Experience Michigan's wild side through learning about the ecological importance of our native wildlife.

Program: Rooted in Nature: A Flora Adventure

Focus: In this lesson, students will embark on an exciting exploration of the plant world, uncovering how plants grow, survive, and thrive in our local habitats.
