

Donor Information

Ada Township Park Tennis & Pickleball Courts

Our tennis court restoration project is under way at Ada Township Park.
The vision: four new tennis courts and six new pickleball courts.

Shortly after Ada Township Park was established, six tennis courts were built in the park with support from the community. Four courts were set upfront by the driveway and two were set back beyond the playground. Those court provided the community with many years of service and simply wore out over time.

In alignment with the Ada Township Parks Community Recreation Plan and community input, we set plans to renovate the courts. The new design reconstructs the front set of courts into four new tennis courts and transforms the back set into six pickleball courts. Construction on this project has begun and completion is expected by the end of July, 2018.

Cost estimates for this project are near \$320,000. This is being financed with support from the Ada Township Parks, Recreation and Land Preservation millage, local donors and community groups. To help offset these costs and support this project, please review the attached Donor Form. Options include making a direct contribution or helping in fundraising initiatives.

For additional information or a meeting to discuss this project, please contact the Park Director, Mark Fitzpatrick at 616-676-0520 or mfitzpatrick@adatownshipmi.com
