

All traffic control and their usage shall conform to the Michigan Manual on Uniform Traffic Control Devices (MMUTCD), 2011 edition. Additionally, all traffic control devices used on this project shall meet the requirements of the American Traffic Safety Services Association (ATSSA) "Quality Standards for Work Zone Traffic Control Devices" - 1992. Traffic control devices are inclusive of signs, barricades, vertical panels, plastic drums, warning lights, arrowboards, changeable message signs, cones, tubular markers, temporary tape, paint, and pavement markers.

This is the "recommended guide" for traffic control only. This document shall be approved by the owner of the affected right of way. Holder of this document agrees to assume all risk and hold harmless Give 'Em a Brake Safety and its employees from any property damage and/or personal injury caused by or arising out of the use of this document.
